

Maria Fernanda Gomez

Semi Senior Backend Developer

Buenos Aires, Argentina | candidata@lynq.test | +54 11 5555-0000
github.com/mfgomez-dev | linkedin.com/in/maria-fernanda-gomez

SUMMARY

Backend developer with five years of experience building REST APIs in Java and Spring Boot for financial technology companies. She has worked with MySQL, Docker and AWS deployments, taking part in the whole product life cycle: design, implementation, automated testing and monitoring.

WORK EXPERIENCE

Semi Senior Backend Developer - FintechAr S.A. (2022 - Present)

Design and maintenance of Java 17 microservices with Spring Boot 3.
Data modelling on MySQL and continuous delivery on AWS containers.

Junior Backend Developer - Pagos Digitales SRL (2019 - 2022)

REST APIs for payment reconciliation and card provider integrations.
Automated testing with JUnit and Mockito over a legacy codebase.

EDUCATION

Systems Engineering - Universidad de Buenos Aires (2014 - 2019)

Final project: an event driven payment reconciliation service.

SKILLS

Java, Spring Boot, MySQL, Docker, AWS, Git, JUnit, REST APIs, Kubernetes

LANGUAGES

Spanish (native), English (professional working proficiency)
